

Principal: Dr Katharine Vincent

Dear parents and carers,

I hope that you and your families are keeping safe and well during this time.

I am writing to inform you about a leadership transition taking place at the school this term.

As founding Principal, I am extremely proud to have led Mulberry UTC during the set-up phase and since its opening in September 2017. During this time, students and staff have achieved great things, with the help of you as parents and carers and with support from Mulberry Schools Trust.

I am now going to be moving into a secondment for the trust, leading Reconnect London, which is a project to connect up the work that schools in London are doing to support young people following the pandemic. As a result, at February half term, I will be stepping down as Principal of Mulberry UTC.

I am delighted to be able to let you know that Sally Brian, currently Senior Vice Principal, will be taking over as Acting Principal following the half term break. Sally will be supported by senior staff from across the trust in this role. Sally and the team will continue to focus on providing the widest possible range of opportunities for our students and supporting students to achieve the best possible outcomes in their qualifications.

I am grateful for all the support that has been given to the school by parents and carers and the wider community during the last five years, particularly during the last two years as we have faced the challenges of the pandemic together.

I wish you and your families all the best for the future.

Yours sincerely,

Dr K Vincent

Principal
